

# Intelligent tax advice to the Sports and Entertainment industry

## Holistic approach

RHK provide a holistic approach when advising sports and entertainment personalities. We act as a member of the board of advisers, with the client as the chairman. We believe that dialogue and transparency are paramount between advisers to ensure that the client receives the maximum benefit.

## Services

RHK act on behalf of professional football players, professional and amateur football clubs, charitable foundations in the sporting community, rugby players, cricketers, golfers and basketball players as well as numerous clients in the entertainment industry.

Clients are provided with specialist advice regarding their personal and business affairs including:

- Tax efficient planning tailored specifically for each client.
- Advising on tax efficient structuring in relation to contractual negotiations in accordance with FIFA rules and regulations for licensed agents.
- Advising and representation on Testimonial Committees.
- HMRC enquiries into the tax position on agents fees, successfully negotiating reductions on any tax due.
- Structuring Image Right deals on behalf of clients.
- Introduce clients to bankers, lawyers, insurance providers and investment advisers, who also specialise in dealing with people involved with the sports and entertainment sectors.
- Advising persons relocating or already residing abroad, taking into account various countries financial regulations.
- Assist with obtaining mortgages for properties – onshore/offshore.
- Offshore tax structuring.
- IHT Planning and Will structuring.

# The feedback from our supporters is **very refreshing**

Our list of clients in this area is extensive and our experience helps us provide the most intelligent tax advice possible. But, please, don't just take our word for it, see what our clients have to say:

## Testimonials

### **Paul Goodfellow**

"As an IFA and FIFA registered football agent, I have an input into most financial decisions my clients make. Over the last 25 years I have witnessed many changes in the market place, some good, some not so good. One of the major changes over that period has been the competition for high networth clients, from Lawyers and Accountants. I was introduced to Bradley Thomas approx. 8 years ago, as a "good" accountant. Bradley takes care of my clients' accounts and tax affairs. All appreciate the fact that Bradley deals with them personally and is pro-active rather than re-active, as with some of their previous accountants. Since our introduction I have recommended many clients and will continue to do so - all have been very satisfied with the service they receive from Bradley and all at RHK."

### **Steve Harrison - Premiership Coach**

"Bradley has not only provided a very professional service, he also has a straightforward and unpretentious approach which personally speaking I find very reassuring."

### **George Taylor - NUFFC Players Liason Officer**

"Imagine moving to a foreign country with limited, if any, knowledge of your new surroundings - the problems can be horrendous! Not so however, for many overseas footballers now playing in the UK thanks to expert advice given by specialists in their own field like Brad Thomas of RHK, someone from whom my own experience I can recommend to anyone most strongly."

### **Luca Basherini - FIFA Agent**

"We are delighted with the professional manner in which Bradley Thomas has assisted us in negotiating players' contracts with Premiership Clubs. The high standard of technical advice allowed our clients to maximise their tax position. Bradley also looks after their tax and financial affairs, introducing them to his professional contacts when appropriate."

### **Carlo Cudicini - Chelsea FC**

"I was introduced to Bradley Thomas by one of the world's largest private banks to provide advice in relation to my personal tax affairs and tax planning structures. Since then, Bradley and I have worked very closely together on a wide variety of tax issues and he has been involved in assisting my agent with efficient tax structuring of my contract."

### **Kevin Kilbane - Professional Footballer (Wigan FC and Republic of Ireland)**

"Bradley and RHK have been a massive help to me by dealing with my tax issues quickly and efficiently and saving me money along the way. Great help and great service."

### **Fabulous Flournoy - Head Coach and Player Newcastle Eagles Basketball - British Basketball League Champions**

"The world of professional basketball is a 7 day a week job once the season starts. The services I receive from Bradley Thomas at RHK - from tax advice to personal and business financial planning allow me to focus on my true priorities - winning basketball games. Basically, Bradley takes time to understand my needs and help me win off the court."
